J 13/988

Area Wage Survey
Jacksonville, FL
December 1988

U.S. Department of Labor
Bureau of Labor Statistics
Summary
February 1989

This summary presents results of a December 1988 survey of occupational wages and employee benefits in the Jacksonville Standard Metropolitan Statistical Area, which consists of Clay, Duval, Nassau, and St John's Counties. This is 1 of over 100 areas which the Bureau of Labor Statistics surveys annually or every other year at the request of the Employment Standards Administration of the U.S. Department of Labor for use in administering the Service Contract Act of 1965. In addition, the Bureau conducts more extensive studies of occupational wages and related benefits in 90 other areas throughout the United States. For information on these reports and other Bureau publications, contact any BLS regional office identified on the back page.

This study covered establishments employing 50 workers or more in manufacturing; transportation, communication, and other public utilities; wholesale trade; retail trade; finance, insurance, and real estate; and selected services. A sample of 154 establishments employing 71,286 workers was selected to represent 789 establishments employing 164,090 workers in the area. Data collected in the sample of establishments were projected to represent all establishments within the scope of the survey.

Table 1 provides hourly earnings information on office and plant workers employed in selected occupations common to a variety of industries. Tables 2, 3, and 4 present information on paid holidays, vacation pay provisions, and insurance, health, and retirement plans for nonsupervisory production and related workers and office workers. (See table 5 for further information on the scope of the survey.)

Occupational classification was based on a uniform set of job descriptions designed to take account of variations in job duties among establishments. The job descriptions used in the survey are available on request.

Revised occupational descriptions are being introduced in this survey for computer operators. In addition, the maintenance, toolroom, and powerplant descriptions have been modified so that workers performing maintenance services for establishments other than their employing establishment are not automatically excluded.

[1] Excludes premium pay for overtime and for work on weekends, holidays, and late shifts. Also excluded are performance bonuses and lump-sum payments of the type negotiated in the auto and aerospace industries, as well as profit-sharing payments, attendance bonuses, Christmas or year-end bonuses, and other nonproduction bonuses. Pay increases—but not bonuses—under cost-of-living allowance clauses and incentive payments, however, are included. Hourly earnings reported for salaried workers are derived from regular salaries divided by the corresponding standard hours of work. The wages of learners, apprentices, and handicapped workers are excluded. The mean is computed for each job by totaling the earnings of all workers and dividing by the number of workers. The median designates position—one-half of the workers receive the same as or more than this rate and one-half receives the same as or less than this rate. The middle range is defined by two rates of pay: one-fourth of the workers earn the same as or less than the lower of these rates and one-fourth earn the same as or more than the higher rate. Middle ranges are not provided when fewer than 15 workers are reported.

[2] For occupations with more than one level, data are included in the overall classification when a subclassification is not shown or information to subclassify is not available.

[3] All workers were at $17.00 to $18.00.

Table 2. Annual paid holidays for full-time workers in Jacksonville, FL, December 1988

Item	Production and related workers	Office workers
All full-time workers (in percent)	100	100
In establishments not providing paid holidays	8	[1]
In establishments providing paid holidays	92	99

[1] Includes basic plans only. Excludes plans such as vacation bonus, vacation-savings, and those plans which offer 'extended' or 'sabbatical' benefits beyond basic plans to workers with qualifying lengths of service. Typical of such exclusions are plans in the steel, aluminum, and can industries.

[2] Includes payment other than 'length of time,' such as percentage of annual earnings or flat-sum payments converted to an equivalent time basis; a payment of 2 percent of annual earnings was considered as 1 week's pay. Periods of service were chosen arbitrarily and do not necessarily reflect individual provisions for progression. For example, the changes in proportions at 10 years' service include changes in provisions occurring between 5 and 10 years. Estimates are cumulative. Thus, the proportion eligible for at least 3 weeks' pay after 10 years includes those eligible for at least 3 weeks' pay after fewer years of service.

(*) Less than 0.5 percent.

Note: Because of rounding, sums of individual items may not equal totals.

Table 4. Insurance, health, and retirement plans offered to full-time workers in Jacksonville, FL, December 1988

Item	Production and related workers	Office workers
All full-time workers (in percent)	100	100
In establishments offering at least one of the benefits shown below	93	99
Life insurance	89	99
Noncontributory plans	58	90
Accidental death and dismemberment insurance	74	81
Noncontributory plans	47	75
Sickness and accident insurance or sick leave or both	73	96
Sickness and accident insurance	48	36
Noncontributory plans	41	35
Sick leave (full pay and no waiting period)	41	80
Sick leave (partial pay or waiting period)	11	12
Long-term disability insurance	25	75
Noncontributory plans	17	68
Hospitalization, surgical, and medical insurance	93	97
Noncontributory plans	32	59
Health maintenance organizations	38	66
Noncontributory plans	7	33
Dental care	55	68
Noncontributory plans	16	36
Vision care	24	28
Noncontributory plans	8	25
Alcohol and drug abuse treatment	74	93
Noncontributory plans	24	55
Hearing care	14	21
Noncontributory plans	6	19
Retirement plans	79	93
Noncontributory plans	67	86
Pension	51	77
Noncontributory plans	49	76
Lump sum	33	69
Noncontributory plans	18	8
Other	4	2
Noncontributory plans	2	2

[1] Estimates listed after type of benefit are for all plans for which at least part of the cost is borne by the employer. "Noncontributory plans" include only those financed entirely by the employer. Excluded are legally required plans such as workers' compensation, Social Security, and railroad retirement.

Note: Establishments providing more than one type of retirement plan (e.g., an annuity and a lump sum payment) may cause the sums of the separate plans to be greater than the total for all retirement plans. "Other" retirement plans provide for a fixed number of payments after which payments are discontinued.

Table 5. Establishments and workers within scope of survey and number studied in Jacksonville, FL,[1] December 1988

Industry division[2]	Minimum employment in establishments in scope of survey	Number of establishments		Workers in establishments				
		Within scope of survey[3]	Studied	Within scope of survey				Studied[4]
				Total[5]		Full-time production and related workers	Full-time office workers	
				Number	Percent			
All divisions	50	789	154	164,090	100	73,106	29,250	71,256
Manufacturing	50	161	31	31,495	19	24,273	2,046	9,672
Nonmanufacturing[6]	50	628	123	132,592	81	48,833	27,204	61,409

[1] The Jacksonville Standard Metropolitan Statistical Area, as defined by the Office of Management and Budget through February 1974, consists of Clay, Duval, Nassau, and St John's Counties. The "workers within scope of survey" estimates shown in this table provide a reasonably accurate description of the size and composition of the labor force included in the survey. The estimates are not intended, however, to serve as a basis for comparison with other statistical series to measure employment trends or levels since (1) planning of wage surveys requires the use of establishment data compiled considerably in advance of the payroll period studied, and (2) small establishments are excluded from the scope of the survey.

[2] The 1972 edition of the *Standard Industrial Classification Manual* was used to classify establishments by industry division. All government operations are excluded from the scope of the survey.

[3] Includes all establishments with total employment at or above the minimum limitation. All outlets (within a metropolitan area or nonmetropolitan county) of nonmanufacturing companies are considered as one establishment when located within the same industry division.

[4] Includes executive, professional, part-time, and other workers excluded from the separate production and office categories.

[5] Includes transportation; communication; and other public utilities (excluding taxicabs and services incidental to water transportation); wholesale trade; retail trade; finance, insurance, and real estate; hotels and other lodging places; personal services; business services; automotive repair services and garages; motion pictures; membership organizations (excluding religious organizations); and miscellaneous services. Major industries excluded from this survey are agriculture, mining, construction; and some services (notably educational institutions and medical services).

Area Wage Survey Summaries

The following areas are surveyed periodically under contract to the Employment Standards Administration of the U.S. Department of Labor for its use in administering the Service Contract Act of 1965. Reports on the surveys shown below are available at no cost from any of the Bureau's regional offices while supplies last.
